

Cornerstone Technologies, a Silicon-valley based business, has designed our Office 365 services to help customers maximize their investment by increasing adoption and aligning efforts to get the greatest impact on the business.

Our assessment covers the following:

- Report and analysis of existing licenses
- Analysis of utilization at granular levels
- Comparative summaries against similar organizations/industries
- ROI and TCO analysis

Our services include the following:

- Guidance and consultation with focus on maximizing your return on investment
- Analysis reports with executive-level presentations for management review
- Technology adoption roadmap and timeline aligning business priorities with Office 365 capabilities
- Onsite Q&A with a senior consultant with at least 20 years of technology experience
- Access to subject matter experts across the entire team via assigned consultant
- Documented and actionable recommendations
- Consult senior management on successful strategies and tactics that are vendor agnostic
